DETAILED ACTION

Claim Rejections - 35 USC § 102

Claims 1, 3-5, 7-12, 16-22, 24, and 28 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by either Sharkey et al (6,073,051) or Ashley et al (6,258,086). Applicant's attention is directed to column 21, lines 4-9 and lines 16-20 of Sharkey et al and column 7, lines 52-55 and column 8, lines 12-24 of Ashley et al. The various structural features are disclosed throughout the disclosures of the references.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 23 is rejected under 35 U.S.C. 103(a) as being unpatentable over either Sharkey et al (6,073,051) or Ashley et al (6,258,086). The particular voltage range would have been obvious to select to optimize performance of the methodology.

Allowable Subject Matter

Claims 2, 6, 13-15, and 25-27 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Sharkey et al (6,122,549) discloses a similar method.
